RE: Revised Remedial Investigation Report, Site 113 (Diamond)

Dear Mr. Faranca:

Please find enclosed three (3) copies of the Diamond (Site 113) Revised Remedial Investigation (RRI) Report which is submitted pursuant to the April 17, 1990 Administrative Consent Order (ACO) entered into by the New Jersey Department of Environmental Protection (NJDEP), Occidental Chemical Corporation (OCC [successor to Diamond Shamrock Chemical Company]), and Chemical Land Holdings, Inc. (now Tierra Solutions, Inc.). The original April 2001 RI Report for Site 113 was revised to incorporate the results of additional investigation conducted in response to NJDEP comments.

Tierra Solutions, Inc. (TSI) received comments to the April 2001 Site 113 RI Report on December 28, 2005. A Response to Comments document was submitted by TSI on February 24, 2006. Subsequently, a Supplemental Remedial Investigation Work Plan (SRIWP) was submitted on March 24, 2006. Following detailed discussions with NJDEP, SRIWP Revision 2 was submitted on July 27, 2007 and approved by NJDEP in a letter received on September 24, 2007. Sampling and analysis were conducted in late 2007 and early 2008 in accordance with SRIWP Revision 2.

The enclosed RRI Report presents the collective results of the Phase I and II RI efforts at Site 113. Appendix B provides a checklist to assist in locating information associated with the NJDEP Comments to the April 2001 RI Report.
